

Onboarding in Time Card

When we hire someone new, a few days before they start (and after they've had time to fill out their information in Rippling), register them in IBeam (a.k.a. Time Card). This is where they will enter their time charges for the day and how you will track their hours for pay, which then informs the Time Card Summary we go over weekly to track budgets and payroll time.

1. Got to <https://ibeam.semanticarts.com/register/>.
2. Enter the:
 - a. New hire's first and last name (middle initial is unnecessary).
 - b. Date of Birth (can be found in their Rippling profile).
 - c. Username as initial of first name followed by full last name, all lowercase (e.g., John Smith is jsmith).
 - d. Password as first four letters of their last name lowercase followed by last four numbers of their social security number).
 - e. Email Address as their Semantic Arts email address (e.g., john.smith@semanticarts.com).
 - f. Click "Create User".
 - i. Note: The screen will resolve and show a message that says "Success" but it will be in red, so it's a little deceiving, but you did it!
3. Now you add "account permissions" to the new hire. Go to <https://ibeam.semanticarts.com/timecard/settings/>.
4. Scroll down to the drop-down list with employee names and select the name of the new hire.
5. Next, choose the appropriate permissions for the new hire (default to "General").
6. Click Add Permission.

The image shows a registration form for IBeam. The form fields are: First Name, Middle Initial, Last Name, Date Of Birth (YYYY-MM-DD), Username, Password, Retype Password, and Email Address. A blue 'Create User' button is at the bottom right. Below the form, a red box contains the text 'Error: Success!' and a 'Create User' button.

The image shows a settings page for IBeam. At the top, it says 'Corinne M Winthrop (cwinthrop)'. Below this is a dropdown menu with a list of employees: Ryan Chandler (rchandler), Mark Seaman (mseaman), Kaspar Poland (kpoland), David W McComb (mkumba), Randolph S Kahle (randolph.kahle), Michael Kifer (mkifer), Nicholas Dorans (ndorans), Edward F Matuskey (ematuskey), Chris Walker (cwalker), Andrea L Zachary (azachary), Eddie Thomas (ethomas), Inger M Gartner (igartner), and Zapier Integration (zapier). To the right of the dropdown is a 'General' dropdown menu and an 'Add Permission' button.

7. Once steps 1-6 are complete, direct the new hire to go to <https://ibeam.semanticarts.com/timecard/>, log in using the username and password outlined in steps 2.c. and 2.d., and make their first time card entry (they can reference the Time Card Quick Start for directions on how to do this). This activates them in the system, which then allows you to complete their setup.
8. After the new hire makes their first time entry, go to <https://ibeam.semanticarts.com/timecard/employee/>.

name	status	Edit	Delete
Vipul Y Kashyap	Inactive	Edit	Delete
Tristan Von Nieda	Active	Edit	Delete
Ted S Hills	Inactive	Edit	Delete
Tara L Deeney	Inactive	Edit	Delete
Steve S McCall	Inactive	Edit	Delete

9. Select their name from the Select Employee drop-down list and click the circle next to “Active”.
10. Click “Submit Employee”.
 - a. Note: When an employee leaves Semantic Arts, go to the SA Employee screen, find the employee in the table on the right side of the screen, click the “Edit” link, choose “Inactive” in the Set Status table, and then click Submit Employee.
11. Once they are active, assign a base pay rate, billing rate, averaging start (important for consultant billing rate pay), and Rippling number here: <https://ibeam.semanticarts.com/timecard/>.

Configuration Edit Order

SA Employee	NEW Spend Authority	Assign Average Start
BillingRAssignment	CommRateAssign	Rippling Number
Client	BasePRAssignment	Project Task
Person (non-SA)	LikelihoodTR	BudgetTR
ScheduleTR	Organization	Billing Rate
Base Pay Rate	SA Subcontractor	Country
State	Sentiment	

- a. Base Pay Rate
 - i. Choose the new hire’s name from the Employee or Subcontractor drop-down list.

- ii. Choose the applicable Base Pay Rate (i.e., Consultant, Developer, Office Manager).
- iii. Select the week of their start week for “Effective From” and choose the last week available in the system for “Effective To”.
- iv. Click Submit base-assignment.

- v. Note: From time to time, employee’s rates change. For base and billing rates, click the “Edit” link to adjust the “Effective To” date for when the current rate will end. Add the new base or billing rate by making a new entry for the employee, base/billing rate, Effective From (the week following the prior rate’s Effective To date), and Effective To week.

c. Averaging Start

- i. Choose the new hire's name from the Employee or Subcontractor drop-down list.
- ii. Choose the applicable Billing Rate (i.e., Entry Level, Associate, Journeyman).
- iii. Select the week of their start week for "Effective From" and choose the last week available in the system for "Effective To".
- iv. Click Submit average-start.
